

DeeJay Tom Silvers Biography

Tom Silver is one of the best known DJ's in Austria. He comes a long way until he stopped in Vienna, where he played in all well known clubs.

With 12 Years of age, he decided to become a DJ. That's why he never started studing, He wants to work as fast as possible to earn some money to buy the most important tool a DJ needs. The well known Technics 1210 turntable!! This was not an easy way, cause if you only earn around 220,- € a month, it's really hard to save more than 500,- € for ONE turntable, and everybody knows a dj needs 2 of them, and a mixer, and records ...

After 3 months he had his first turntable and trained to mix records with a tape.

A few months later, Tom Silver (these days only called dj tom) made a mixtape and send it to the "Hollywood", a bigroom disco in Innsbruck. from there he played every sunday at the "Hollywood" club. One year later he became resident in this disco.

From there, the agency "Austria DJ Team" booked him for several gigs all over west Austria, Italy, Swizerland and Germany.

After 2 years in the agency, he quit, because they always gave him the empty clubs, mostly he managed to fill up the clubs, but when the clubs where running good, the agency put him again to another empty club and sent one of the "experienced DJ's (good friends) into these.

In this time he realized, that he has the gift, to fill up clubs in shortest time and so he played residencys in nice clubs he liked and made them to real hotspots.

Later he took a residency in a club in Italy, but after six month a friend called him to "Disco Stern" in vorarlberg. It's not a cool club, but the owners where very good friends of Tom and wanted him to play the first few weeks in the disco after they re-designed the disco and made it much bigger than before, because they know if Tom is in the House, the club will be full!

After this he changed to a disco in Swizerland, called "Arena", an amazing and really huge disco with more than 6.000 people, over 36.000!!!! watts sound and a big lasershow. The disco was in the middle of NOWHERE, but Tom Silver managed even there to get more than 3.000 people even on Thursdays!!!!!!

In 2000, he moved to Vienna. After some residencys like "Cube Club" or "P1 - Vienna" he became resident @ the "passage", austria best running club, where he plays every 2nd Wednesday for around 800 - 1400 people since a few years.

The "passage" is the top of clubs in austria, but he also played @:

- Empire club
- U4 Disco
- Palais Auersperg
- Volksgarten
- Hochriegel club
- Take 5
- Beluga, Linz
- Bawa Lounge, Fügen
- Gmd, graz
- and many more ...

He only sometimes support internatioal DJ's so this list is very short, the reason is clear: Clubs with a DJ like Tom Silver as resident DONT NEED big name DJ's, they are full without them.

Anyways he played with names like Mark knight, Jonathan Ulysses, the Global DeeJays ...
